

JOSE QUISPE

BACKEND DEVELOPER | IT SUPPORT PROFESSIONAL

Stamford, CT | 914-343-3277 | jquispe1994@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Backend Developer with hands-on Python project experience and a 7+ year background in IT support, healthcare systems, staff training, and workflow improvement. Skilled in troubleshooting software, hardware, access, and connectivity issues; documenting solutions; and guiding nontechnical users. Currently strengthening backend development skills through DAE while building practical tools that improve business efficiency.

TECHNICAL SKILLS

Development: Python, Git, GitHub, Visual Studio Code, CSV/JSON, file handling, functions, conditional logic, debugging, REST API fundamentals

IT Support: Windows, TeamViewer, AnyDesk, hardware/software troubleshooting, ticket management, technical documentation, eClinicalWorks, Microsoft 365

PROJECTS

IT Ticket Manager | Python / GitHub

Completed

Built a Python help desk application that allows users to create, review, update, escalate, add notes to, and close support tickets.

Created role-based workflows for Clients, Tier 1, Tier 2, and Managers, with ticket records stored in CSV files.

Applied functions, loops, conditional logic, input validation, file handling, troubleshooting, and Git/GitHub version control.

Repository: github.com/weknewtheworldwouldnotbethesame/ITticketmanager

Order Sync & Failure Tracking Dashboard | Business Software Project

In Development

Developing a backend-focused dashboard to monitor order processing, identify failed transactions, and organize follow-up work in one place.

Designed to reduce manual tracking, processing delays, printing, ink, and paper use while supporting more efficient and environmentally responsible operations.

PROFESSIONAL EXPERIENCE

Senior Supervisor, Patient Service Specialist | Open Door Family Medical Center

2017 - 2025

Provided front-line technical support for eClinicalWorks, user access, devices, printers, connectivity, and workflow issues in a high-volume healthcare environment.

Supported users in person and remotely, documented solutions, and explained technical steps clearly to nontechnical staff.

Trained and onboarded employees on EMR workflows, scheduling systems, security practices, and operational procedures.

Coordinated escalations, system updates, and process improvements while maintaining HIPAA-compliant operations.

Administrative Assistant | St. Onge Steward Johnston & Reens LLC

2016 - 2017

Managed scheduling, documentation, records, office systems, and daily administrative workflows.

EDUCATION & LANGUAGES

Westchester Community College | Computer Information Systems

Current Student

DAE | Backend Development

Current

Languages: English and Spanish (Bilingual)
